

## *Australasia Now*

---

Group Exhibition  
25 May – 10 June 2018

Opening event:  
Friday 25 May 6–9pm

This exhibition explores identity constructs within the Australasia region; what it means to be part of this geographic region in the 21st Century, how we see ourselves now, how we have historically seen ourselves. How first nations peoples have always connected and viewed Australasia, how colonial constructs shaped 'white Australia', how increasing globalisation has re-empowered people, cultures, and communities allowing them to be heard. This is *Australasia Now*.
